President's Message

Dear TCO members,

You may have read the notice about concerned TCO members in the last Blazer. I want to assure you that the board of TCO works diligently to keep TCO functioning. The board makes decisions regarding membership, funding, events, and our lodges. The board are all elected volunteers. They meet monthly, answer emails and attend yearly events as volunteers.

In a club our size, there will always be differences of opinion. That is why voting is necessary. Though the board often comes to a consensus on many issues, the membership will nearly always have differing opinions. Any board decision will likely please most but not all members. We base our decisions on what is best for the club. The club president does not have a vote on any board decisions. The president runs the meetings and may replace certain (non-board) positions with board approval. The vice president, social chair, secretary, treasurer, membership chair and lodge chairs participate in voting.

Our club is over 100 years old. Certainly there have been changes in the way the club functions over the years. There will always be changes. Over the last 8 years or so many members have noted issues we are trying to correct. First is lack of new members. Our old way of members inviting friends to the club resulted in decreased membership as the club membership aged. Therefore we have been experimenting with new ways of attracting members who still have the drive and ability to participate in the outdoor events and take care of the lodge.

The second tough issue is handling funds. Before I and other new board members started in January, the previous boards had made decisions to keep a certain amount of funds in investments and not to drain the bank account. This was a good decision. We have been adhering to these decisions although this limits the amount of funding certain parts of the club can ask for. The good news is we are in good financial standing and we have not cut any events or hindered lodge function due to funding.

If you have a concern, please email me or any other board member. I reply to all emails personally. It is best not to go through another person to voice your opinion or request. If there is a concern that many support, this will likely be addressed in the next board meeting and potentially result in club changes. Most recently we eliminated hike fees for members and changed the allowed guest number for overnight stays at the lodges. These were items asked for by members.

Sincerely,
Sheryl Wagner, club president

Meetup Website

The Trails Club Meetup site allows event planners to organize TCO events online. While we try to get every event in the Blazer and on the Trails Club web site (www.trailsclub.org), some events, especially those planned on short notice, may appear only on the TCO Meetup site at: <https://www.meetup.com/Trails-Club-of-Oregon/events/> Ed.

Let's Talk About:

The McKenzie River Outing - A Fertile Environment To Recruit Club & Committee Members and Discuss Items of Club Business (such as free fire wood for Tyee).

During an introduction circle at this last TCO Outing at Belknap, Susan Saul gave a great report on the difficulties faced by planning traditional Trail Club Outings. Piggy backing on that thought, George Milne mentioned to me his observation of how Senior, Summer and Family Outings have kind of morphed into this outing Vicki Wood has organized at Belknap Hot Springs for the last 14 years. The advantage of this location is the ability to offer a variety of lodging ranging from upscale rental cabins to tenting and RV parking. The McKenzie River National Recreation Trail offers many recreational possibilities including: hiking, biking, rafting and cultural interpretive sites such as Fish Lake.

What started with Vicki's vision of a "simple" Outing at Belknap, Friday evening to Sunday morning (4 group meals: Friday dinner potluck, Sat breakfast, Sat dinner and Sun breakfast), has expanded to club members arriving ahead of the Outing and remaining days afterward. Most labor intensive for Vicki is club registrations, organizing food prep, being a liaison for all the accommodations she reserves, along with managing the details of an equitable chore list for the group gatherings and being leader of the advertised hike. The key to having a common campfire and dining area is Vicki and the Milnes sharing adjoining sites above the McKenzie River. Though the Milne's RV site usually serves as a check-in area, neighbor Irene Crosby manages the sign-in & sign-up process, including furnishing decorative name tags and most recently Phil Crosby has transported food and provisions. Though a popular trip for seniors, it is not exclusive. Our ages ranged from high school sophomore up.

2018 June Nesika Work Parties Report

16 people went up to the June work party at Nesika Lodge. It opened at 9 AM Friday June 22th & 9 am on Saturday June 23rd. We (Mike & Jean Townsend-Stupek) went up on June 23 & 24th. Some people went home [Saturday] at 6:30 pm. Mike & Jean stayed overnight and cleaned up before they walked out to their car with help of Glen Conrad. I (Mike) brushed off the two benches, painted them & cut the carriage bolts. I took the bolts to the scrap pile, then helped with the wood.

Jean helped in the kitchen, washing dishes & helping the cook.

We are donating the new carriage bolts costing \$41.00.

On Monday before the work party [June 18th], Glen Conrad, I and one more person helped move the generator. Glen took it to one place but they said no. Next place in North Portland said they would look at it. It turns & that is great. They said that they're glad we didn't start the motor because it was full of soot and that would have caused a failure. They're going to take each piece apart, determine costs and what needs replacing. This is cheaper than a new generator.

Mike & Jean Townsend-Stupek

From the Outings Coordinator

There have not been Alpine/Wilderness Outings for the past several years for a couple of reasons.

- (1) A lot of people are interested in participating in such an outing but no one is willing to take on the leadership role of being the organizer;
- (2) Very few wilderness areas in Oregon and Washington have licensed commercial packers under permit anymore, and most permits are only for one string. The TCO gear requires two strings to pack in all the food, group equipment and personal gear for 12 people. TCO has gone farther afield to Idaho wilderness areas, but that sometimes requires two days of driving each way due to the distance which can be a hardship for members who are working.

We held an outings meeting in January 2018 at the home of Gregg Baker and Susan Green. Only 5 people attended. We discussed several outings ideas; Gregg Baker and Brian Carlson did follow up research but several potential venues already were booked during the most desirable dates. The result was that Gregg and Brian organized a car camp and hiking outing in July in the North Cascades based out of a Forest Service group campground on the Mount Baker Highway.

Nesika:

Jeff Lawton reported for Glenn. 18 people attended the June work weekend. Tim Kutscha operated the tractor and hauled multiple loads of scrap metal to the parking lot for removal to the recyclers. There are about 1500 lbs more in the pile to haul. Lynn Cochran and Dave Bogardus worked on the damaged underground power lines. Mike Stupek removed the damaged planks from the viewpoint benches and prepped them for new wood. Paul Williamson and Jeff Lawton cut wood and eliminated 2 burn piles, reducing the wood to stove size pieces. Brianna, Carol, Julie and Lynn reduced two piles of scrap wood to wood that can be used in the cook stove. Karen and Roger Anderson along with Cooks Nina Rohrs and Jean Stupek worked on the meals. Cooks, Roger and Karen Anderson, donated the food for the weekend. Thank you very much! We cleared two additional tent sites for members who wish to stay overnight near the fire pit pad. One shower works now, though flow pressure is low. The work was hot, hard, dusty and dirty, but smiles were visible on everyones' faces.

Linda reported that they moved the generator to town. The board voted electronically, approving platforms for temporary tent sites, funded through donations.

George talked with county about site plans to repair the concrete block wall on the men's dorm. A structural engineer will be at the July work weekend to assess the integrity of the block wall for the men's dorm so we can move forward with construction and permits. Next weekend plans include work on the generator shack, clearing women's dorm area, grading the trail to the point, and removing bolts from the generator building walls, preparing for a new roof. The road has some high middle sections. We hope that the Forest Service will correct it.

Tyee:

Joel reported for Aaron. We have determined the best insert for the fireplace. By email, the Board approved \$259 to cover the additional cost of the fireplace insert. Grit in the triple sink was also discussed.

Membership:

Lori reported a new member, First Reading: Cecile Chevraux, sponsored by Marti Farris and Diane Brooke. Lori is still working on our total number of members. Some

checks for dues haven't yet cleared. They may have been lost in the post office that burned. Also, some members may have missed the reminder to pay dues in transitioning from the paper Blazer to the electronic version.

Publications: Randy was absent.

Trips:

Raya reported a big family weekend at Tyee combined with the work weekend on July 28. It will include a membership hike. Another membership hike is planned for Labor Day weekend.

Social

Susan reported plans for a picnic and for a presentation of TC activities. They are thinking about having pic nights that travel to various coffeeshops or pubs. We discussed fees for meeting rooms in such facilities.

Member feedback:

Phil Crosby discussed advanced copies of the agendas for the Board meetings.

Pete Nelson stated his hope that conflicts within the club can be resolved.

New Business:

Secretary Rebecca Knudeson approved by email vote.

Blazer issues tabled until August.

Appointed George Milne as chair of the history committee with Sylvia as historian.

George offered to donate space in his business building for the history office. The facility needs some work. The cost to the Club will probably just be for utilities. Parking will be a problem. Sylvia will need to be contacted to let members into the space. George will be responsible to handle the donations. Our lease for the current office goes through the first of February, 2019. The move probably won't happen until November. Joel moved to accept George as history committee chair. Cindy seconded. Unanimously approved.

Members with unpaid dues: Lori may send a postcard to members with overdue dues and/or send them to all members in the fall as a dues reminder. She may also phone members with outstanding dues. Some non responders may have died and the Club hasn't been notified. Currently, the PayPal method of dues payments doesn't allow for address updates nor for members indicating interest in serving on specified committees.

Paper Blazer discussion tabled until August.

Elections Committee Plans: The President will work on appointing a nominating chair. Linda Conrad and George Milne volunteered to be on the committee. It would be good to include some newer members. In the past, the committee had 5 members. It can't include current board members. We need to begin planning the annual meeting, especially to determine a location and date.

Art Stangell is giving up his law license at the end of the year, offering to act as a registered agent for the Club.

Meeting adjourned at 8:02.
